Re: California Independent System Operator Corporation

**Informational Filing of Effective Date of Hybrid Resources and
Co-located Resources**

Docket No. ER21-2853-___

Dear Secretary Bose:

On September 8, 2021, the California Independent System Operator Corporation (CAISO) filed tariff revisions to clarify market rules for hybrid and co-located resources, specifically to (1) enhance market participation by hybrid and co-located resources, and (2) allow the use of multiple aggregate capability constraints by co-located resources at a single generative facility. By order issued November 30, 2021, the Commission accepted this tariff amendment and directed the CAISO to submit an informational filing to inform the Commission of the actual effective date within five (5) business days of implementation.¹

The CAISO implemented the enhancements pertaining to Phase 2a on December 15, 2021. Accordingly, the CAISO is submitting this informational filing to specify an effective date of December 15, 2021 for the tariff revisions accepted by the Commission in this docket.²

¹ *Cal. Indep. Sys. Operator Corp.*, 177 FERC ¶ 61,051 (2021). The Commission directed the CAISO to notify the Commission of the actual effective date of the Tariff revisions within five business days of their implementation, in an eTariff submittal using Type of Filing Code 150 – Report.

² This informational filing updates the effective date for the Tariff Records listed in the Table submitted as Attachment A in order to distinguish the Hybrid Phase 2a changes from the Hybrid Phase 2b

The CAISO has served copies of this filing on all the parties to the service list for this proceeding. In addition, the CAISO is posting this filing on the CAISO website.

If there are any questions concerning this filing, please contact the undersigned.

Respectfully submitted,

By: /s/ Andrew Ulmer
